IS IT RHEUMATISM?

Aren't You Really on the Wrong Track?

A good share of so-called rheumatism is caused by weak kidneys. When the kidneys fail to clear the blood of uric acid, the acid irritates the delicate nerves. Torturing pains dart through the affected part whenever it is moved. By strengthening the kidneys, Doan's Kidney Pills have proven their worth in thousands of so-called rheumatic cases, lumbago, sciatica, gravel, and urinary disorders. Doan's are well known in Norway and warmly recommended by Norway people. Read this Norway case:

Mrs. F. L. Starbird of South Paris, who formerly lived in rear Beals Hotel, says: "Doan's Kidney Pills have been an old standby with me for years. At times my kidneys don't act as they should or my back aches. I often have blinding dizzy spells and rheumatic trouble when my finger joints seem to swell and are painful. I always use Doan's Kidney Pills at these times and they quickly relieve and cure me of the attack. I can't say enough in praise of Doan's."

IN MEMORIAM

To the memory of Our Dear Friend and Foster Brother, Sergt. Edgar William Andrews:

"I cannot say and I will not say that he is dead, he is just away. With a cherry smile and a wave of the hand, He has wandered into an unknown land, And left us dreaming how very fair, It needs must be since he lingers there. And you, oh you, who the wildest yearn For the old-time step and the glad return, Think of him faring on, as dear In the love of there, as the love of here. And loyal still as he gave the blows Of his warrior strength to his country's foes. Mild and gentle as he was brave, When the sweetest love of his life he gave To simple things—where the violets grew, Pure as the eyes they were likened to. The touches of his hand have strayed As reverently as his lips have prayed, When the little brown thrush that harshly Chirped Was dear to him as the mocking-bird. And he pined as much as a man in pain. A withering honey bee wet with rain. Think of him still as the same I say. He is not dead, he is just away."

The Red is for the fight in us, The White is for the truth in us. We treated even Prussian pride That boasted of "The Day." The Blue is for the truth in us. The Red and White and Blue, The only flag for Yankee men And Yankee women, too! For Yankee men and those they love Are brave and kind and true, And what a Yankee undertakes, He always sees it through.

We have heard the story of how you fought To make the Union strong. We know how bravely you stood for the right, And crushed out a terrible wrong. We want to tell you that we love the flag, Wherever we see it unfurled, It stands for the Country you helped to make. The very best in the world.

Yes we love the flag and we're proud of it too, Proud of our flag, our Country and You. The dead are with us everywhere, by night and day, No street we tread but they have wandered there.

Who now lies still beneath the grass Of some shell-scorched and distant plain, Beyond the fear of death, beyond all pain, A thousand years that passed have gain, A what we today have lost, The splendor of their sacrifice for years to come.

"In the silence, hushed, we listen For the voices heard no more. Knowing we shall meet our loved ones On that blissful Heavenly Shore. In the bloom of life he was cut off, No longer could he stay, Because it was our Saviour's will To call him hence away."

Day by day we all do miss him, Words would fail our loss to tell, But in Heaven we hope to meet him, Happy there with Christ to dwell. He sleeps in Jesus free from pain, Our loss though great, to him is gain, Before by all who knew him here.

Gone but never to be forgotten by his foster sisters, SADIÉ LOCKE AND MATTIE HOPKINS.

The Wentworth Poultry Fountain

(Patent Applied For)
We have recently perfected and are now offering a new fountain or watering system known as THE WENTWORTH POULTRY FOUNTAIN. It has been developed with the idea of lessening the spread of diseases through the drinking of contaminated or impure water. The fountain or main body of water is entirely separate from the drinking vessel. Water is automatically drawn from the fountain and comes in direct contact with water in the drinking vessel. The object, therefore, of the fountain is to automatically supply fresh pure water as required by the birds, and its advantages are as follows:
FIRST--The Drinking Vessel being separate from the main body of water, may be rinsed or disinfected at will without interfering with the fountain or main water supply.
SECOND--There are no float valves, air-tight caps, or anything of the sort to get out of order. Its construction is simple, its operation is positive and pleasing.
THIRD--It is durable--will last a lifetime, and is inexpensive.

Baltimore Woman's

Message to Mothers

At 820 W. Hayward Ave., lives Mrs. Henry Johnson, who a few weeks ago wrote what may be termed a good message to all mothers. She said: "I have used Dr. True's Elixir for more than ten years and know it is good." She used Dr. True's Elixir, the True Family Laxative and Worm Expeller, to rid her children of worms. There is hardly a child but what needs Dr. True's Elixir, for they all usually have worms when growing up. Mrs. Johnson appreciates what Dr. True's Elixir accomplishes. Your children will be in better health through its use.

CASCO

Grange Notes
Casco Grange held its regular meeting at its hall, Saturday evening, May 20. The piano had been tuned, some of our best singers were back and several names were voted upon for membership.

Next meeting will be the conferring of the 1st and 2nd degrees. The questions for debate were on "Good Roads" and, Resolved, that the attempt of the Anglo Saxon race to civilize the natives of the South Sea Islands has not been altogether a success.

The debates created much merriment. Those taking part were E. Wilson Baker, Mark L. Leach, Celia M. Compton, Nina Burgess, George Hanson, Hattie Moors, Maude Edwards, True Winslow, Forest Edwards, Myron Hall, Harold Hanson, Mrs. Esther Farnce and Walter Hamlin. Bad Blaze

Several from this place were hurriedly called from their work one day by the fire whistle from the mill at Perleyville owned by Ralph Hancock. A spark flew from the smoke stack causing a hot fire in the underbrush near by. With plenty of help they soon had it under control.

Firestone
CORD TIRES

The tire section above at the left shows the condition of a Firestone 33x4 1/2 Cord Tire after 20,994 miles on a Yellow Cab in Chicago.

The section at the right was cut from a new Cord of the same size. Careful measurements show that only 1/3 of the tread of the tire on the Yellow Cab has been worn away after this long, gruelling test. The carcass is intact after more than 11,000,000 revolutions.

Firestone Cords have averaged over 10,000 miles on Chicago Yellow Cabs (1,200 cabs all Firestone equipped). In thousands of instances, they have given from 15,000 to 30,000 miles.

Look at the tread—scientifically angled against skid, massive

and heavy in the center where the wear comes, tapered at the edges to make steering easy and to protect the carcass against destructive hinging action of high tread edges. The carcass is air bag expanded to insure uniform tension and paralleling of every individual cord. It is double "gum dipped" to make sure that each cord is thoroughly insulated with rubber.

This is the reason why Firestone Cords unfailingly deliver extraordinary mileage. It explains the unanimous demand of thoughtful tire buyers for these values. The local Firestone dealer will continue to provide the personal service that makes Firestone tire comfort and economy complete.

The Roofing Products For Your Buildings

The selection of a good material is an essential part of a building's construction or repair. A roofing is supposed to protect the interior of a building and the material contained in it.

Cheap roofings cannot withstand the ravages of the weather and will leak. The leak may damage the contents of your building and the cost to you may be many times the value of even the highest-priced roofing.

As a responsible distributor, with a reputation to maintain, we recommend

RU-BER-OLD

CHANGE OF LIFE WOMAN'S TRIAL

Proof That Lydia E. Pinkham's Vegetable Compound is of Great Help at This Period

Metropolis, Illinois.—"I have taken Lydia E. Pinkham's Vegetable Compound and it is all it claims to be and it has benefited me wonderfully. I had been sick for eight months with a trouble which confined me to my bed and was only able to be up part of the time when I was advised by a friend, Mrs. Smith, to try Lydia E. Pinkham's Vegetable Compound and Liver Pills. I was so much benefited by the use of these medicines that I was able to be up and about in two weeks. I was at the Change of Life when I began taking the medicines and when I passed over that time without any trouble. Now I am hale and hearty, do all my housework, washing, ironing, scrubbing and cooking, all there is to do about a house, and can walk two or three miles without getting too tired. I know of several of my neighbors who have been helped by your medicines."

Mrs. Emma Culver, 705 E. 7th St., Metropolis, Illinois.

Depend upon Lydia E. Pinkham's Vegetable Compound. Nervousness, irritability, heat flashes, headache and dizziness, are relieved by this splendid medicine.

"WAY DOWN EAST"

Based on Wm. A. Brady's Famous Play by Lottie Blair Parker and Jos. R. Grismer

It's a simple story of plain folks—the greatest of all Griffith plays—uncommonly well done and with breath-taking effect.

Every audience has set spellbound through the unfolding of this great production.

With its humaneness and its story of unusual love, its thrills and its pathos, it stands alone in the field of spectacular pictures.

The all star cast which carries out the story quite eclipses any cast that ever appeared in this piece on the speaking stage.

Sergt. McLain of Salvation Gives Advice

Says Everybody Ought to Know What a Grand Medicine Tanlac the first scientifically correct pol-

"Everybody should know about Tanlac, and as it was a testimonial that caused me to take it, I feel that I should make a statement myself to try to help others," said Mrs. Sarah McLain, 5-4 Summer Court, Portland, Me., a popular Salvation Army Officer.

"After a serious operation three years ago, I was in an awful run-down condition. My appetite was very poor and having to eat the lightest foods because of a weak stomach and bad digestion, I became extremely weak and nervous. The slightest housework tired me out and at times I was so nervous that I was almost frantic. I also had the worst kind of pains through my chest and just felt miserable.

"One day I saw a Tanlac testimonial that fit my case so well that I began taking it. Now, I seem to be in just perfect condition and am feeling like an entirely different person. I am deeply indebted to Tanlac and will always praise it."

Tanlac is sold by all good druggists.

Annual Roll Call
Elizabeth Crockett-Blake Tent, Daughters of Veterans, held their annual roll call and supper Tuesday evening at Pythian Hall with an attendance of over 80. The Grand Army and their wives, and the families of the Daughters were invited. A pleasant surprise was given by the arrival of guests from Lewiston, including Department President, Rose Menon Minott, Junior Vice President Lilla F. Rice, and Past Department Patriotic Instructor, Minnie L. Willis of Mechanic Falls, W. E. Rice and son, Donald F. Rice. The tables were very attractive with their decorations of apple blossoms.

A fine supper was served, the menu including cold boiled ham, mashed potato, hot rolls, salads, pickles, pastry and coffee. Mrs. Bertha Noyes, Mrs. Flora Newcomb, Mrs. Flora York, and Mrs. Anna Felt were in charge. After the supper the roll call was responded to by the Tent, and several letters were read from absent members. Comrades, Cox, Kimball, Wiley and Seavey were called on for remarks. Spanish War Veteran Merton L. Kimball and Sons of Veterans Charles G. Blake, Charles F. Ridlon, and Frank H. Noyes; World War Veterans Roland S. Noyes, Mrs. Minott, Mrs. Rice and Mrs. Ellis spoke interestingly. Mrs. Martha Whitmarsh and Mrs. Charles G. Blake, the daughter and the daughter-in-law of Mrs. Elizabeth Crockett Blake, for whom the Tent was named were made Honorary members, the first in the State department. The story of the inception of the Tent, and its growth was read by the Tent Secretary. The Norway Tent is the only Tent that observes its Roll Call anniversary. After the meeting a social hour was enjoyed.

Dr. A. Leon Sikkenga, post commander of Stone Post American Legion, suggested some weeks ago a field day for all Legioners in this section. The State adjutant has noted the plan and in an official communication to the various posts, speaks highly of the plan and would be pleased to see the affair carried through. A date in June will be selected and the gathering to be at the fair grounds if held.

The Holy Department of the Methodist Episcopal church held a meeting with Mrs. Fred Harding Thursday afternoon. Lessons No. 21-28 were taken up. F. V. Miller and family and friend, Mr. Hubbell of New York, will arrive Saturday for a two weeks stay at the Lake and enjoy the bass fishing. They will occupy Miss J. E. James' cottage on the island.

SPRING DEBILITY

Loss of Appetite, That Tired Feeling and Sometimes Eruptions.

"Thousands take Hood's Sarsaparilla as a spring medicine for that tired feeling, nervous weakness, impure blood and say it makes them feel better and sleep better, and 'makes food taste good'."

Spring debility is a condition in which it is especially hard to combat disease germs which invade the system here, there and everywhere. The white blood corpuscles, sometimes called "the little soldiers in the blood" because it is their duty to fight disease germs, are too weak to do good service.

Hood's Sarsaparilla strengthens the "little soldiers" and enables them to repel germs of grip, influenza, fevers and other ailments, relieves catarrh and rheumatism. It has given satisfaction to three generations. Get it today, and for a laxative take Hood's Pills.

Injured by Broncho

Dallas Benson, who with his Wild West Show, is in Canada, is suffering with a broken ankle. An account of the accident, from a Canadian paper says:

"A badly injured leg suffered by a determined cowboy added a somewhat heavy case to the already auspicious opening on Saturday evening of the fair being held on the circus grounds at the corner of Delormier and Ontario streets on behalf of the St. Luke Hospital."

The rough rider, named Dallas Benson, makes a feature of riding a bucking broncho on whose back no one else has ever been known to maintain a seat long enough to know he was there. On Saturday evening's show, the broncho took issue with the rider and unceremoniously threw him. The rider was unhurt, but chagrined at the thought of having failed to complete his turn, mounted the horse again as soon as the audience was gone, declaring that he would not stand for such treatment from any horse.

A short struggle for the mastery ensued, which ended with the horse falling to the ground and rolling over on his rider. The cowboy was taken to Notre Dame Hospital, where his injuries were treated. He was afterwards taken to his lodging, but will not be in condition to ride the unruly broncho again for some time.

SUPREME JUDICIAL COURT

The Milliken Case

The accident case in which Mrs. Nellie O. Milliken brought suit against Elias P. McKee of West Paris to recover \$3,000 damages for injuries, required a full day for its disposition. The same jury that heard the Daugherty case was empaneled to render a verdict on this evidence. They were out about fifty minutes and returned a verdict in favor of the defendant, Elias P. McKee.

The action was the result of an accident at the Oxford County Fair Grounds on Sept. 21, 1921 as the large crowd including autos, carriage and pedestrians were leaving the enclosure through the Main entrance late in the afternoon. According to the evidence the plaintiff approached the gate on her way out and followed along the line of cars waiting to pass through. At a signal from traffic officer Ernest Hutchins, the line started forward. Mrs. Milliken who was walking about three feet from the auto line of traffic stepped, or was jostled in front of Kusti Korkonen's Ford driven by the defendant.

Testimony showed Mrs. Milliken was knocked down and rolled over and the front wheel passed across her body. When the car stopped the rear wheel rested on her back. She was severely injured and suffered a permanent impairment of her health. The plaintiff was represented by Wilfred G. Conary of Norway with the following witnesses: Mr. and Mrs. Joseph Milliken, Dr. H. L. Bartlett, Shirley Milliken and James Russell all of Norway; and Mr. and Mrs. E. P. Lovejoy of Bryant's Pond.

The defense with Alton C. Wheeler of South Paris admitted the accident and in no way disputed her injuries, but alleged that as Mrs. Milliken was deaf, especially in her left ear and on the side where the traffic was in progress; as she walked too near the moving line of autos, she was guilty of contributory negligence, therefore could not recover damages. Attorney Wheeler put on the stand the following witnesses: Kusti Korkonen, Olli Kuitinen and the defendant all of West Paris. Mrs. Geo. W. Q. Perham of Bryant's Pond heard the honk of the horn, saw the plaintiff stop in front of the wheel and looked away to escape witnessing the crash. John Babb of Dixfield, a deputy sheriff witnessed the accident and testified to events as he observed them. Archie Swan of Bryant's Pond and John Monroe of Mechanic Falls were eye-witnesses and gave testimony to facts just before and after the accident. Judge Hanson gave a clear charge emphasizing the fact that the rule of law governing this case, was not exactly the same as in a highway accident, for automobiles were in this case confined to a track by traffic officers, while pedestrians were free to travel far enough away to be safe.

Other Court Matters

Zigmund Youbionki was found not guilty of assault on Ben Stomkus in a boarding house in Rumford.

Everett McArthur, Antonio Busulari and John McKinnon the Rumford boys indicted for breaks at business houses were placed on probation.

Paul George indicted for assault on Annie Shippen of Rumford was placed on probation.

Annie Warrini, of Rumford charged with maintaining a nuisance in the McKensie block was found not guilty by the jury. The case was based on a quantity of alcohol seized by the Rumford officers in her apartments after following Louis White to the rooms. White escaped and no evidence in court sustained the charge.

Frank Shubowsky of Mexico was found guilty of maintaining a nuisance. Moonshine beer and wash with men drinking about were facts alleged to have been found during a raid at his home.

After a conference at recess a settlement was reached in the case, Laura Gagon vs. Antoine Turcott where plaintiff sued for \$10,000. The plaintiff claimed among other alleged facts she married the defendant at Brunswick on Jan. 11, 1897; that one child had been born to them; and that later she discovered Turcott had been married previous to that date and maintained two homes; that he had deceived her into an alleged unlawful marriage.

NORWAY AND VICINITY

T. C. Morrill Will Go To New Bedford, Mass.

Word has been received that True C. Morrill, superintendent of Bangor public schools, was elected superintendent of the New Bedford, Mass., schools, in place of Allen P. Keith, the present superintendent, at a special meeting of the school committee in that city Friday. This election closes one chapter in a bitter controversy over the conduct of the New Bedford school system. Mr. Morrill will take the new position with a salary of \$6,500.

Superintendent Keith and G. Walter Williams, principal of the New Bedford High School, have both been under fire for some time past by an opposition element, which this year has culminated in the election of a school committee which is not in sympathy with the two, and which has demanded the resignations of both. Superintendent Keith has submitted his resignation, which was accepted, but Principal Williams refused to resign. He has demanded a hearing and has many prominent people in that city, who are active in his behalf.

Charles A. Frost has built a piazza for Judge C. F. Whitman, the floor is nine feet across the ground at the south end with lattice work down to the ground, and stairs leading up to it. The Judge is also going to make changes and additions to his cottage at his wood lot up on the lake and put up a garage and wood room connected. Mr. Frost has put up a metal ceiling for L. J. Brooks with twenty corners in the room. It took ninety feet of cornice moulding to go around the room. Mr. Frost is now at Arthur Noyes making extensive changes in his house. Win Sloan and Will Gary are working for Mr. Noyes.

H. I. Holt and Mrs. Holt are at Edwin Marston's for a while.

Mrs. Fannie Howe has been having her hall and sitting room papered and painted and other repairs made.

Shaw's orchestra of six pieces will give a dance Friday evening, May 26 at the Norway Grange Hall.

The party had an enjoyable evening and broke up about eleven o'clock.

Catarrahal Deafness Cannot Be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one remedy, constitutional treatment. HALL'S CATARRH MEDICINE is a constitutional remedy. Catarrhal Deafness is caused by an inflamed condition of the mucous lining of the Eustachian tube. When this tube is inflamed you have a running, snoring or imperfect hearing, and when it is entirely closed Deafness is the result. Unless the inflammation can be reduced, your hearing will be destroyed forever. HALL'S CATARRH MEDICINE acts through the blood on the mucous surfaces of the system, thus reducing inflammation and restoring normal conditions.

JOSEPH ANDREWS LETTER

Mr. and Mrs. Heald have several daughters and one of them, the wife of Herbert Taylor lives quite near. The Taylors have three daughters, and I noticed that one of them was sent in to help grandmother Heald entertain the company. After dinner with Ira, I made a door yard call at the Taylor home, and a short visit with Ira's sister, Mrs. Clara Harriman. Then Ira hitched up his family horse and took me to the Cushman house, calling by the way on Mrs. Mary Kendall. At the Cushman house I bid Mr. Heald good-bye and he returned home and I continued my walk to the home of George Eastman, where I spent the night. The next morning I rode with George Eastman and wife to Elwell Andrews, where Robert Eastman's big car and chauffeur were waiting us and took our crowd and Mr. and Mrs. Otis Andrews to the landing at Brown's Camps, where Mr. Eastman's large power boat was in waiting to take a picnic party to Rattlesnake Island. Mr. Eastman had kindly donated the use of his auto and power boat, also his chauffeur, for the promotion of the picnic, and about forty individuals were transported to the Island, where a general good time was had and a fine picnic dinner enjoyed by all, for which we were mostly under obligation to Mr. Eastman. Amongst those present from abroad was the artist, Volk, who has a fine studio and summer home on the shore of the lake and as an artist has a national reputation. Robert Eastman, who has done much to beautify Eastman's Hill and with his demonstration farm, fine stock and many valuable improvements is showing to the world what old Oxford County, Maine can do when given a chance. Others present were Lew Hill and Rev. Allerton. With the ending of a perfect day we were all safely transported back to our homes and thus ended another Red Letter day in the history of our lives.

I spent the night at the home of Elwell Andrews. His family consists besides himself of his wife, nee Mildred Stearns, and Mildred and Theodore Pottle, a niece and nephew of his wife who were orphaned by the death of their parents a few years ago. He has one son, Otis Elmer, who with his wife was just moving into the Stanford house, so as to be near his father to help about the chores. On one of my calls on Mr. Andrews he was out in his blackberry patch picking berries. It was about the close of the season. He had a wonderful patch of the tame berries but owing to a lame leg he was not able to pick and market many berries, but he allowed the public to help themselves. They to pay him in half price for the berries picked, if my memory is not at fault, he told me that they had picked and paid for over thirty bushels of blackberries.

The Elwell Andrews farm was first settled in 1780, over 140 years ago, and has been continuously occupied by members of the family ever since, first by Capt. Samuel Andrews, next by Stephen Andrews, his son, and now by his grandson, Elwell Andrews. Mr. Andrews has some interesting historical records which I shall copy as the basis to my Lovell Story. One is his discharge from the Massachusetts militia, dated 1807, on a deed from Capt. Abraham Andrews to Capt. Samuel Andrews dated 1807 and one a letter to his wife while in the army dated in 1814.

The next day, Sept. 1st, I walked down to Sell Stearns home where I had a pleasant good-bye visit, then back to my headquarters on the hill where I spent the night. The next day I visited and had dinner at Frank Chandler's, then back to headquarters for the night. One day I rode down to John Elliotts with Mr. Pottle who went to borrow an ice cream freezer. I was anxious to see John for I had heard of his being hurt and of his wonderful recovery. It seems that he was working in the woods and a heavy dry limb fell on his head, a tremendous blow on the head. He was knocked unconscious and remained so for several days. His skull was badly fractured and a piece nearly two inches square removed and considerable of the brains ran out. A specialist was sent for in the city. He said the man would die before morning and that if he did live he would not know anything. But wonder of wonders, a miracle was performed, not by skillful surgery, but by nature herself. John recovered, and is today worth several hundred dollars. Nature healed the wound and caused a new growth of hair to grow. One side is partially paralyzed and his speech is somewhat affected, and he walks with a cane. His sister keeps house for him: He has a motor boat which he runs for the pleasure of the summer boarders. He attends to his own business, and they say that his mind is as clear, and his judgement on business matters as good as it ever was.

On Sunday with Mr. Pottle I went to the Christian Church, where I had a heavy attendance. As this was to be my last attendance, I bid my friends good-bye, and returned with Mr. Pottle to his home where I passed my last night in Maine. When visiting at the Harbor I passed the Methodist, Bradley Memorial Church, and intended to make mention of it in my story of the Harbor, but overlooked it so will write of it now. It is a very pretty church, I was not inside but was told that the inside was as fine as the outside. It also has a fine basement and a modern heating plant. The Harbor people are to be congratulated upon receiving such a valuable present as this modern memorial church given them by Mr. and Mrs. David A. Bradley, of Center Fryeburg.

On Monday, Sept. 5th, I ended my Maine visit and started on my return to the west. Mr. Pottle took me with his driving horse and buggy to the village, and the auto stage line took me to the station at Fryeburg, where I boarded a train for Portland where I arrived about noon. Finding that I had to wait until late at night before I could get a train to Philadelphia, I took a long walk through the city and at Lincoln Park held down a seat for two hours and watched the crowds come and go. It was a labor day and all the trains were behind time and crowded with pleasure seekers. I called three times at the home of Mrs. Clara Hamlin Freeman at 8th Hill St. and at the third call found Mr. and Mrs. Freeman at home and had a pleasant evening call. Mrs. Freeman was one of my schoolmates in school-boy days, and I had not met her since I started west in 1867. From Mr. Freeman's I went to the station and waited for my train which was due to leave about 10 p. m. My ticket to Philadelphia at four cents a mile cost me \$17.70. At the last moment I was fortunate enough to get an upper berth in a sleeper at \$4.86, total \$22.56, which landed me in Philadelphia about noon the next day. I went to the Broad Street subway where I took a subway train to the Ferrys where I took a ferry boat across to Camden, N. J., and arrived just in time to catch the train

to Stone Harbor, N. J. where I was to spend a month with my cousin, Mrs. Etta Haley Osgood, who owns a fine cottage at the Harbor which she rents for the summer, and occupies herself after the tourist rush is over, and until the cold weather drives her south. Mrs. Osgood was born in Chatham, N. H. in the same town where I was born, about 1853. When quite young her father, Jewet Haley and mother, Mrs. Lauretta Colby Haley, moved to Stowe, Maine, where I first met them in the winter of 1871. A few years later, they moved to Fryeburg and bought a fine farm about half way between North and West Fryeburg where they lived until Mrs. Haley's death a few years later, when the farm was sold and he made his home with his daughter, Etta, in Philadelphia until his death a few years ago. Mr. and Mrs. Haley are both buried in the annex to the West Fryeburg Cemetery and a valuable monument has been erected to their memory. Mrs. Osgood received a liberal education and was a graduate of Mount Holyoke College. She married and was a resident of Portland, Maine for many years. She was the mother of three children, two girls and one boy. The boy died quite young and was buried in the Osgood lot in the Methodist Cemetery at Fryeburg Village. Arline married and had a beautiful home in Washington, D. C. but consumption claimed her and she was laid away. Ethel, the oldest, is married and has a good home at Swathmore, Pa., and her husband has a clerical position in the Pennsylvania Railroad office in Philadelphia. Mrs. Osgood lived in Portland many years and was always a leader among women. For years she was secretary of the Woman's Clubs of Maine, and was elected its first President. The first report of Maine's Women's Clubs was dedicated to her memory and had her photo engraved on the first page in honor of her being its first President. During the years she has lived in Philadelphia and Germantown she has been active in church and social work. For several years she was President of the Penn. Union, Woman's Congregational Missionary Society, and during the World's War, she substituted as a teacher, in the public schools.

Stone Harbor is an island seven miles long connected to the mainland by a Boulevard three and one-half miles long ending at Cape May Court House, the An County Seat of Cape May County, N. J. It is 71 miles from Philadelphia, 35 miles south of Atlantic City, about 18 miles North of Cape May, and 14 miles from Sea Island City. On the Ocean front it has a solid sea wall and a board walk one mile long. On the inside are seven artificial bays from one fourth to a half mile in width which makes a wonderful safe and cozy fishing and bathing resort. Mrs. Osgood is very proud of her cottage, "Aucoisco," Pleasure Bay, Stone Harbor, N. J., ten rooms, electric lighted and city water. I enjoyed my months stay there very much. While there I attended, with five others, W. C. T. U. Convention in the land of Goshen, about five miles out in the country. It was a County Delegates Convention, and a large crowd out. They also had a picnic dinner. The earnest way the ladies had of doing business gave me a new insight into the power for good exercised by the W. C. T. U. in all great moral questions of the day, and especially in the great fight that they are making at the present time to down Old King Alcohol.

We also went on a trip to that world famous pleasure resort, Atlantic City and spent four hours walking up and down the board walk and viewing the many attractions to be seen. We also paid a dinky dollar for the privilege of being wheeled up and down the board walk for an hour in one of the hundreds of wheel chairs that are for hire.

My month at Stone Harbor soon passed, and on Oct. 5th I took the train for Pittsburgh where I have been loafing ever since. Mrs. Osgood has a good job for the winter doing Editorial work for the Cape May County Times Company at Sea Island City, N. J. Thus pleasantly ended my 1921 summer outing, my last visit to the old home land since I left Maine in the spring of 1867, 54 years ago.

This summer I go back to the farm at Hurley, S. D. to spend the summer, and earn my keep by making and tending garden and doing small things about the farm. It will seem good to get out in the open where there is breathing space, and to be where I can hear a hen cackle, a rooster crow, a sheep blat, a calf bawl or a pig squeal, and where they have plenty of milk, butter, eggs, home grown vegetables and fruit that have not gone through the hands of the profiteers, the retail City Merchants and Huxters. The farmers in the west have had some terrible knock out blows in the last three years. Last fall I sold a thousand bushels of corn at 24 cents a bushel and oats went to about 16 cents a bushel. Farm land prices were cut in half and our taxes were more than doubled. The farmer and his hired man work in the field ten hours a day and then have the chores to do. Last year the hired men on the farm received less than one dollar a day and his board and washing.

In response to my request for a copy of a letter written by Captain Samuel Andrews to his wife I received the following letter from Mrs. Elwell Andrews, which I give in full—Center Lovell, Maine, Oct. 16, 1921. Dear Friend: Am sending a copy of the letter that you wanted and have tried to spell the words as they were in the letter, but some of them were hard to make out. Hope you found your folks all well on your return home, and we hope that you will visit us again in the near future. Sincerely, Mrs. Elwell Andrews. "Brownville, February the 7th, 1814, Dear Wife and family—After my Love and Respects to you all, wishing you all well, I will just state my situation at present. I am well in health, but lame in my limbs which renders me unable for duty and I have been in the General Hospital since the 9th of June when a number of us left Sacket Harbor and retired to the place above mentioned where we are and remain under good persons and in good and comfortable quarters and receive good attendance and provision in abundance. I have wrote a number of times and received no answer, however I heard from you by John Harmon. He said you were all enjoying good health which gave me great satisfaction and I have the disagreeable tidings to inform you that I never have received one cent of my pay since I left home at the same time as I have suffered for nothing as I had some little opportunity of making some little cash for myself in my leisure hours to the State of them at present I cannot say nothing. Times here are all peaceable at present and has been for some time. God only knows what the event may be the ensuing summer. I have nothing more to add only I wish you to remain

(Communication) TAXATION AND HIGH COST OF LIVING

The High Cost of Dying
It is said the coffin trust has made over 3000 per cent on its output. They no longer stop at skinning us alive.

How Americans Are Taxed
Discussion of the subject of taxation was never less academic, nor more timely, practical and urgent than it is today. Few of us have realized how very tax-ridden the American people are. Everywhere the tax-gatherer is eating into their subsistence and depriving them of the sinews of enterprise. The consequence is that all over the land the taxpayers are murmuring and in a mood of revolt against a condition for which inefficient public servants are held largely responsible.

Statisticians tell us that for every family of five in Massachusetts the tax total averages \$575, and in New York State \$535 per year. This is astounding and almost appalling. Many will term this the peak of plunder under the guise of law. The situation in several of the other States, if not quite so bad, is plentifully depressing, and to add to the blackness of the prospect it is promised that, in most sections of the country, the taxes will be increased and not lessened during the next few years. In our cities local taxes have been bloating rapidly since pre-war days. The amount levied on property in New York City is now \$60 more per family than in 1914; in Chicago \$70 more; and in Philadelphia nearly \$100 more. But that sort of thing has not been going on in the larger cities alone. This showing is typical of the smaller towns, also, census figures disclosing in them a large increase in the expense of administering their affairs. Villages and rural districts suffer similarly and their taxpayers have as good cause to complain as have the residents in more populous communities. Abuses of taxation have reached the dimensions of an epidemic. It may be argued that a greater part of the public obligations of country districts, cities, states and nation were unavoidably or wisely contracted and the payment of interest and principal of these cannot be avoided. So far as such an assertion is true (as it is in the case of our national Government, which had to fight a great war) no blame can be attached to the creators of taxes. But it is a notorious fact that those who legislate for the people too often ignore sound business principles and the public weal. Too much politics, too much catering to special interests and to much initiating of unnecessary public projects account for a vast deal of the present oppressive levies.

The influence of heavy taxes on the course of business is so diverse that anti-high-tax movement may be among the possibilities. A national taxpayers union would have enough power to make Congress, legislature, boards of supervisors and city fathers more careful as to the imposts they inflict upon the people.

There has been a great kick among army and navy officers about cutting down the force to reasonable limits. There is a great outcry that it is not safe to cut the army and navy much. The ones who yell the loudest on these lines don't want to lose their fat jobs cruising around the globe or idling their time away at army posts, hundreds of miles from the remotest danger. If the country is going into the business of disarming it had better begin with these yelping supernumerary pay suckers.—Comment.

The people who own automobiles cannot understand why the price of gasoline should go up while the price of crude oil is going down. That is as plain as a black patch on a white barn door. The profiteer is still at the business of skinning the consumer.

The Railroads since turned over to private control have made great improvement in management. There are now cars enough at all points for carrying freights but there are still thousands of empty idle cars. Wages, rates and prices of building materials are way up beyond reason and general business is slack and will remain so till these come down.—Comment.

Price and salary boosters are enemies of their country and of mankind. It will be the great wonder of the next age that they were tolerated in this period when the whole business world is chaotic and needs nothing so much as to get back to normal conditions. During April the cost of living went up some, instead of down and some persons wonder why any people submit to slavery.—Comment.

RADIO VS. TELEPHONE

So many startling predictions have been made about the future of radio communication that telephone users, as well as stockholders in the American Telephone Company, might very well wonder if this new means of communication would supplant the telephone. Should such a development take place it would not greatly disturb the American Telephone company, because this astute organization has already acquired control of underlying patents, many of which are its own invention, which give it a clear field in the application of the radio to the telephone service of the Bell system. In its annual report, the Radio Corporation of America makes the significant statement that it is not engaged in carrying on commercial radio telephony in the United States. However, the best expert opinion is that the radio will not take the place of the telephone. Radio is held to be advantageous only where it is not feasible to put wires, as over bodies of water, between shore and ship, and between moving objects. It may also be used to advantage in broadcasting music, speeches and the like, but this does not take the place of wires, which make possible intercommunication. After a careful study of this problem, the American Telephone company says, "Radio is so inherently limited that we cannot extend the hope that it will be substantially helpful to the service of many millions of subscribers."—Boston Post.

THE 30 x 3½ tire situation today is just this—

The man who buys an USCO at \$10.90 is justified in believing that his money is going farther in tire value than it ever has gone or could go before.

Naturally he appreciates the quality of USCO. That was established long ago.

It is still fresh in his mind that USCO led the national market into the \$10.90 price range.

The makers of U.S. Tires always intended the 30 x 3½ USCO to be the highest value in its field.

At \$10.90 it creates a new classification of money's worth.

Here's What You MUST Have Before
You Could Own THIS Heating System
at Any Price

Your home, store, church or other building must be
naturally adapted for its satisfactory operation and ap-
proved as such by the maker's scientific engineering staff
at the factory.

How can they know without seeing the place?
Either from plans that we make, without cost or
obligation to you, or from your blue-prints which we
send to them.

Their experience and knowledge enables them to de-
cide one of two things: Either that your home cannot
be satisfactorily heated by this method AT ALL, which
is final or that they and ourselves, are perfectly safe in
giving you a guarantee of highly satisfactory service in
use, in which case they make and send us blue-print plans
of your home, specifying the proper size Round Oak, the
correct location of the ONE register and the ideal man-
ner of installation.

This is not to MAKE trouble for you and ourselves,
but to PREVENT it.

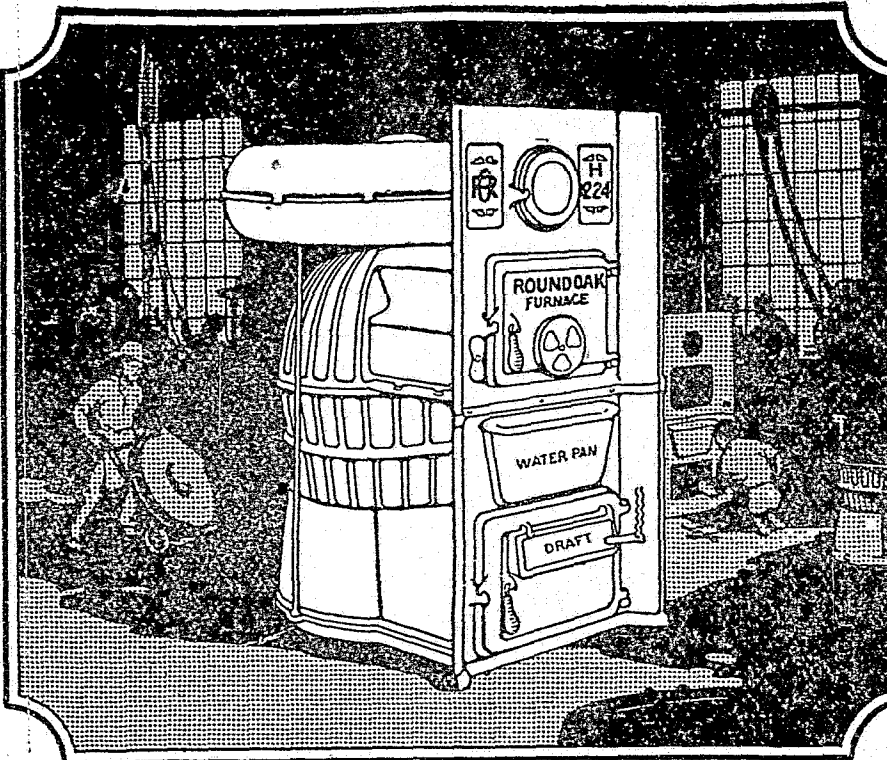

The best things about the Round Oak guarantee is
the CAREFUL and SCIENTIFIC manner in which
HOMES are SELECTED BEFORE the system is in-
stalled. This protects the purchaser against possible dis-
appointment and discomfort in mid-winter.

Many places must be examined during
the next few days—phone or write for
an early appointment.
